

Lesson 1 Planets in our solar system

Venus

yellow
between Mercury
and Earth

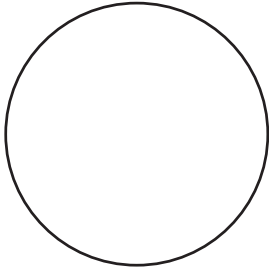

Mercury

brown and grey
next to the Sun

Jupiter

pink and white stripes, red spot
between the asteroid belt and Saturn

Saturn

yellow
between Jupiter and Uranus

Earth

white and blue
between Venus and Mars

Mars

red
between Earth and
asteroid belt

Uranus

blue
between Saturn and
Neptune

Neptune

blue
between
Uranus and Pluto

Pluto

brown and white
furthest from the Sun

Asteroid belt

brown and grey between
Mars and Jupiter
