# Windmill

1. Measure 9cm along each diagonal line, from each corner and make a mark.

2. Cut out the square. Cut along each diagonal up to the mark.

3. Fold each corner marked o into the centre and glue it down.

4. Cut a strip of cardboard 24cm x 1.5cm.

5. Push a paper fastener through the sail, a bead and then the cardboard. Open it behind the cardboard to hold the sail in place.
