Friendship Bracelets

Make an amazing friendship bracelet for all your bestest friends

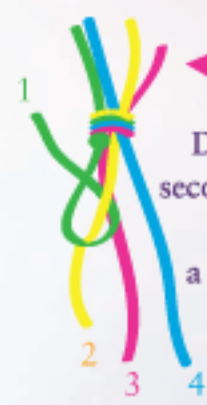

You need: Four colours of embroidery thread each about 80 cm long; Sellotape

Instructions:

Bunch your colours together and tie them in one knot about 3 cm from the top. Tape the knotted end to a table or the back of a chair. Separate the strands by colour.

Start with string 1 and loop it over and then under string 2. Hold string 2 straight, then pull the knot you've made tight.

Do step one a second time so you have made a double knot.

Now take string 1 and make double knots around each of the other strings (3 and 4) until string 1 is over on the other side

Now do the same thing again. Start with string 2 and tie double knots, left to right, all the way across the other strings.

Keep going until the bracelet is as long as you would like it.

Gather all the strings together and tie a knot to secure them. Then trim the ends off.
