

Barry dot-to-dot

Draw a line to connect the dots and complete the picture. When you are done connecting the dots, don't forget to colour the picture in.

Design a shell for Norman

Since Norman doesn't have his own shell, why not help him out and find something suitable that he could use. Something round would be good, like a clock, or a doughnut, or even a silly red nose.

Once you have thought of something, draw it in the circle.

Help Norman find his shell

Norman is searching for a shell so he can join in the fun with the other snails. Can you help him make his way through the maze to the centre where his perfect shell is waiting for him?

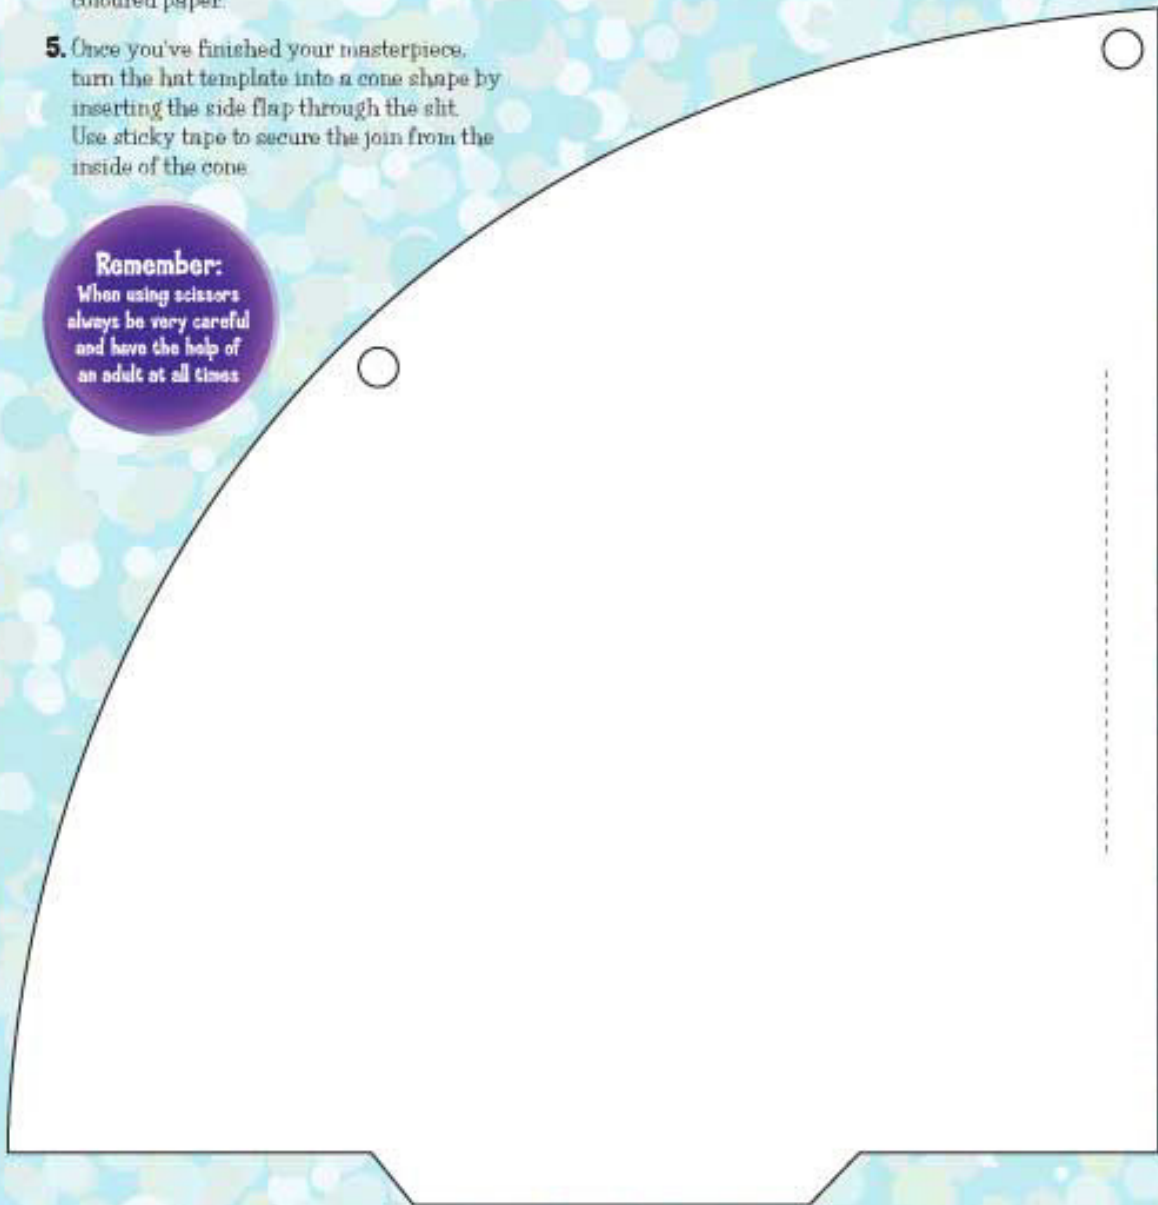

Make a Cone Hat like Keith

1. Cut around the outside edge of the cone hat template. If you want to make it bigger you can photocopy this template and print it on A3 paper.
2. Cut a slit along the dotted line.
3. Punch a pair of holes through the side of the hat where shown.
4. Begin colouring in your cone hat. You can use crayons, glitter glue, puffy paint and coloured paper.
5. Once you've finished your masterpiece, turn the hat template into a cone shape by inserting the side flap through the slit. Use sticky tape to secure the join from the inside of the cone.
6. Create a chin strap by inserting the ends of an elastic string through the holes. Tie knots in the ends to secure in place.
7. You can use all sorts of things to adorn the top of your cone hat just like Keith. You could try adding curly ribbons or even pompoms!

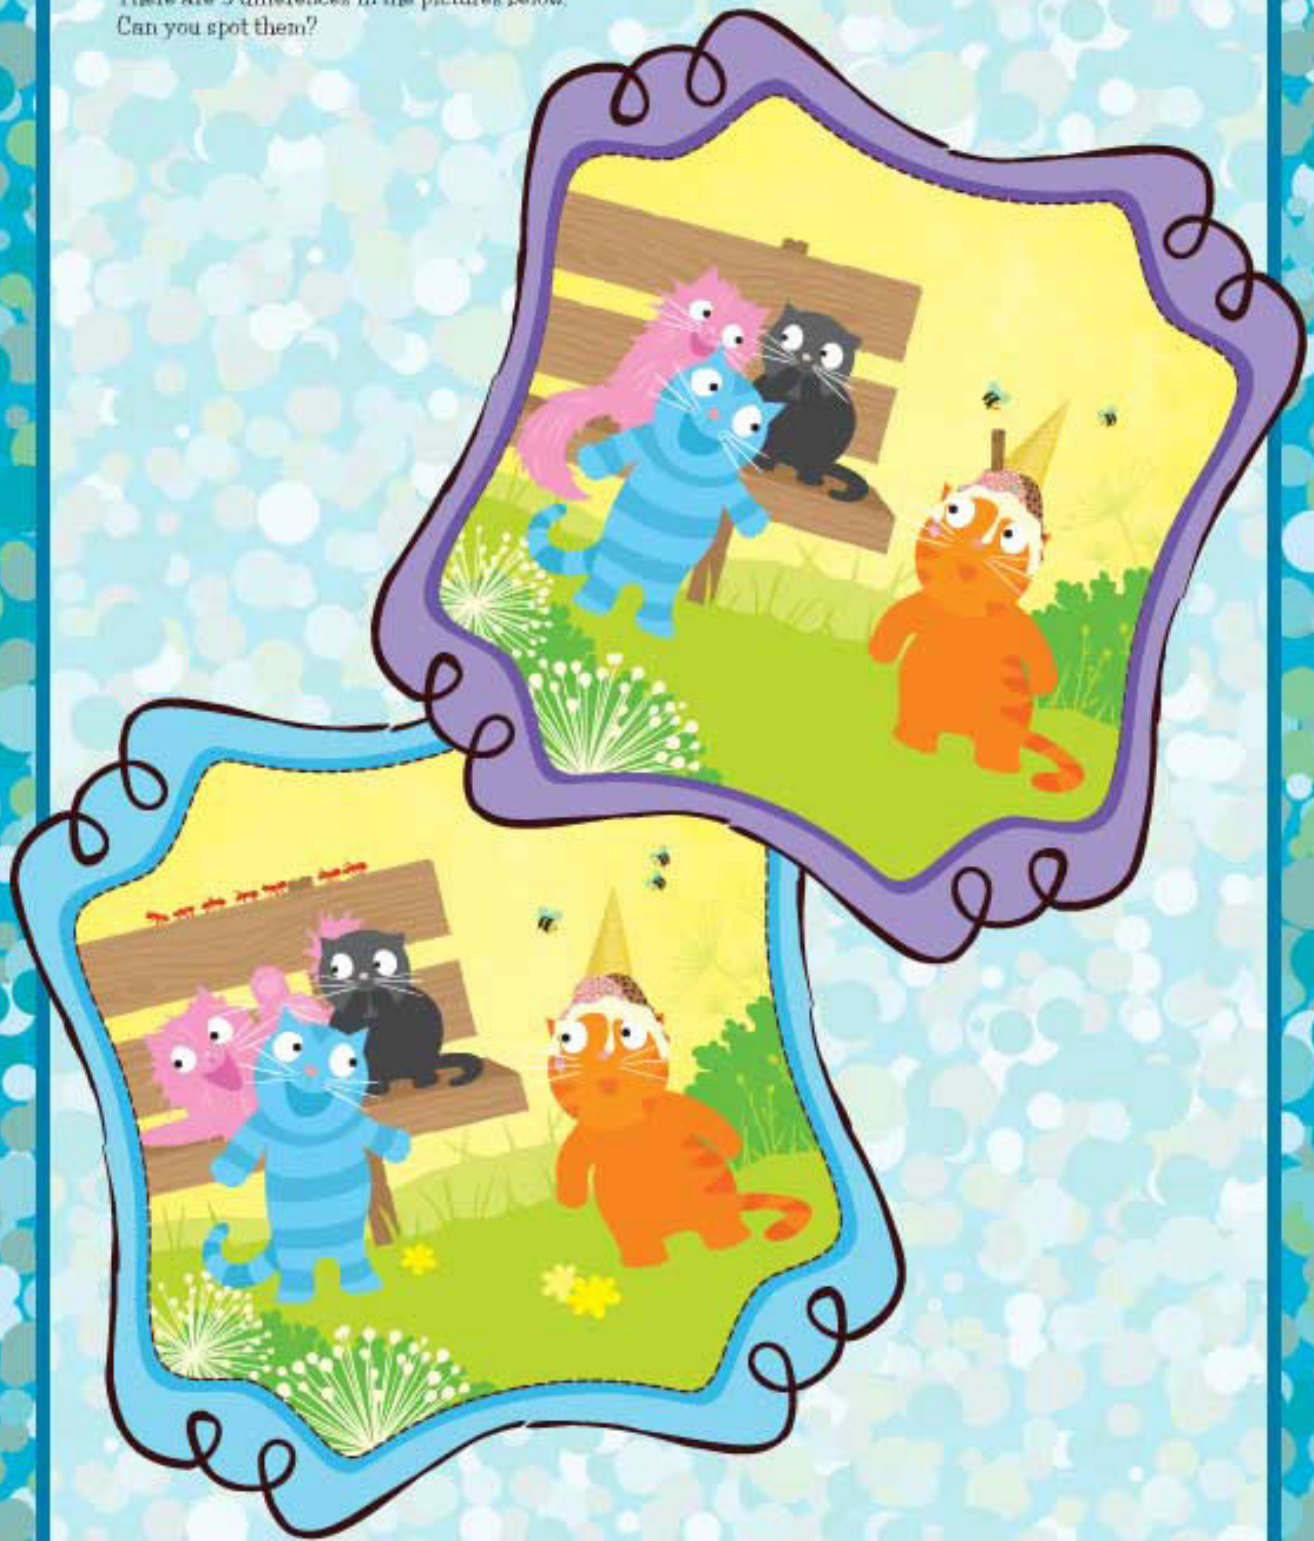

Remember:

When using scissors always be very careful and have the help of an adult at all times

Spot the difference!

There are 5 differences in the pictures below.
Can you spot them?

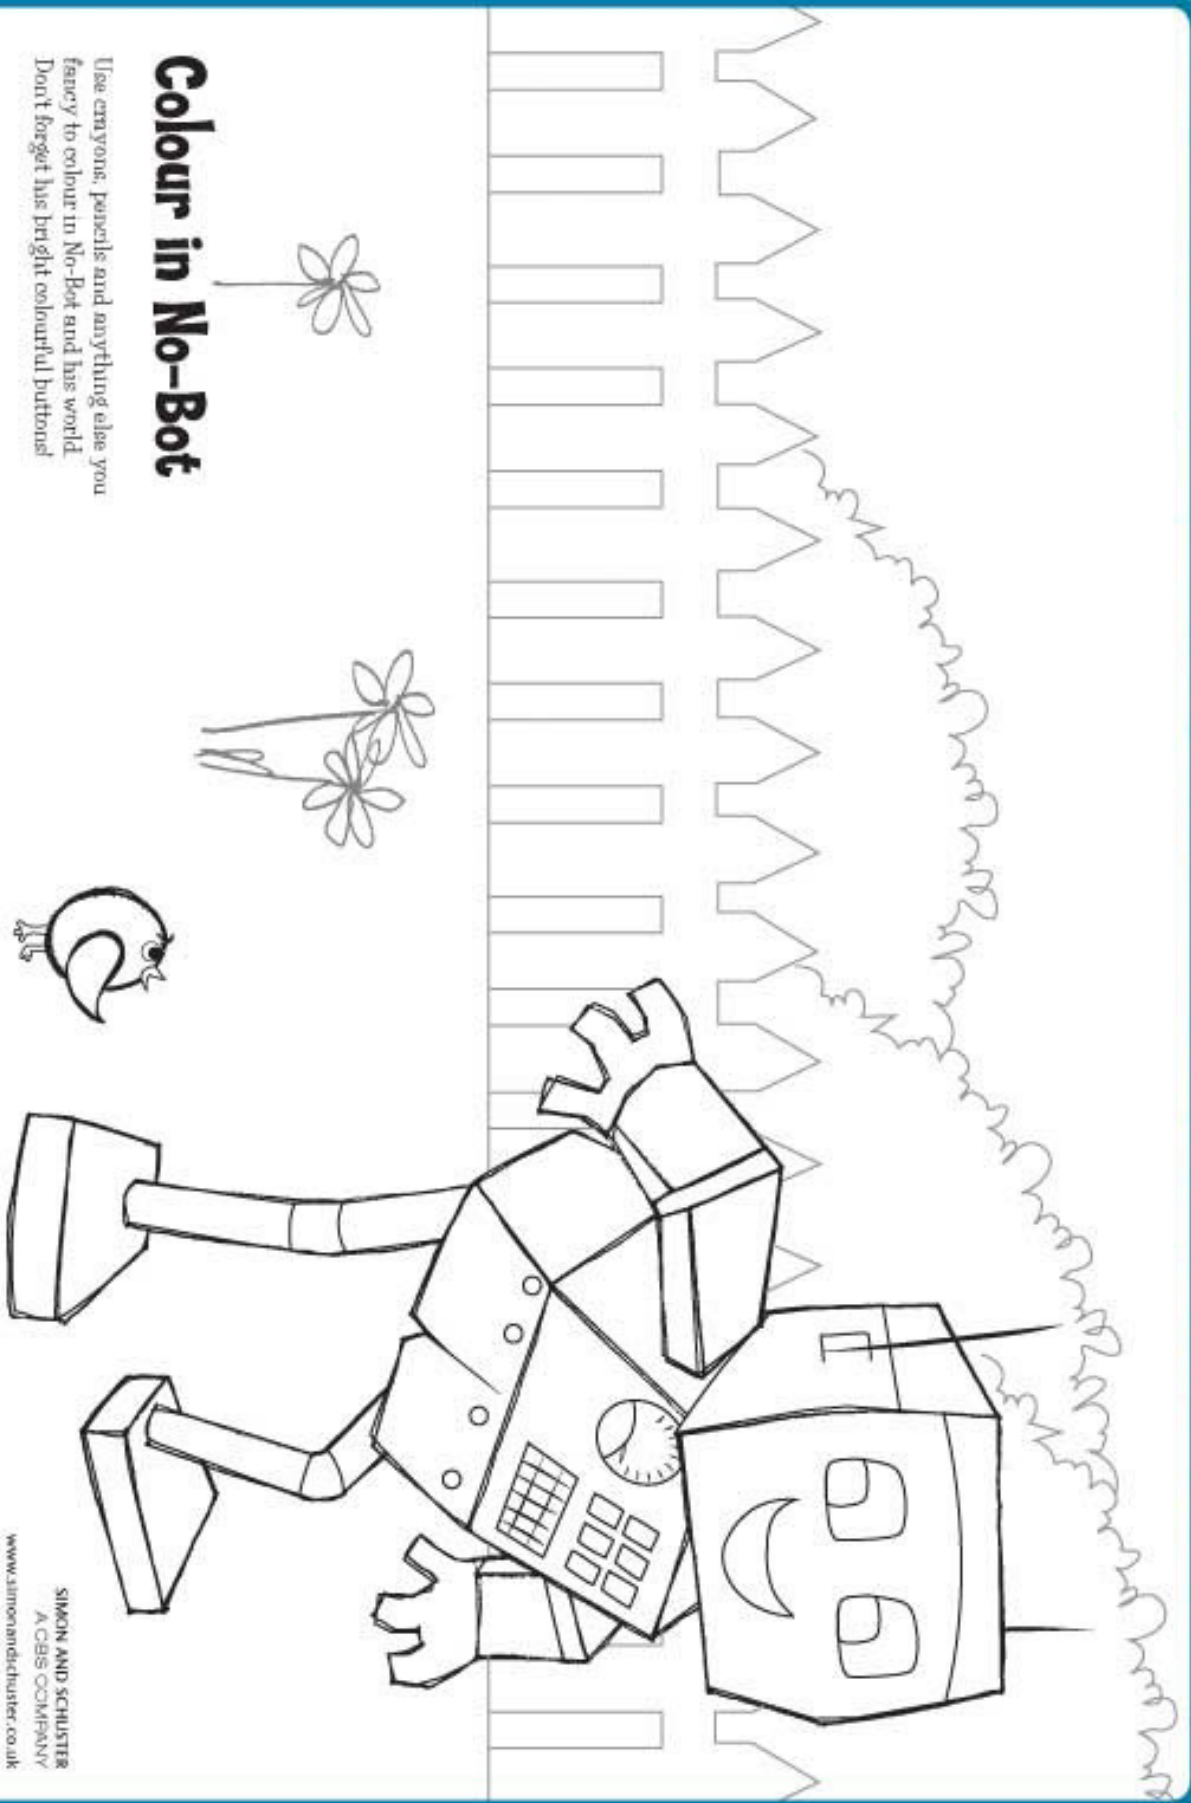

Jigsaw Puzzle Game!

Cut out the puzzle pieces, mix them up and then try and put them back to discover who Bear thinks is using Bernard's bottom at a window box!

Remember:
When using scissors
always be very careful
and have the help of
an adult at all times

Colour in No-Bot

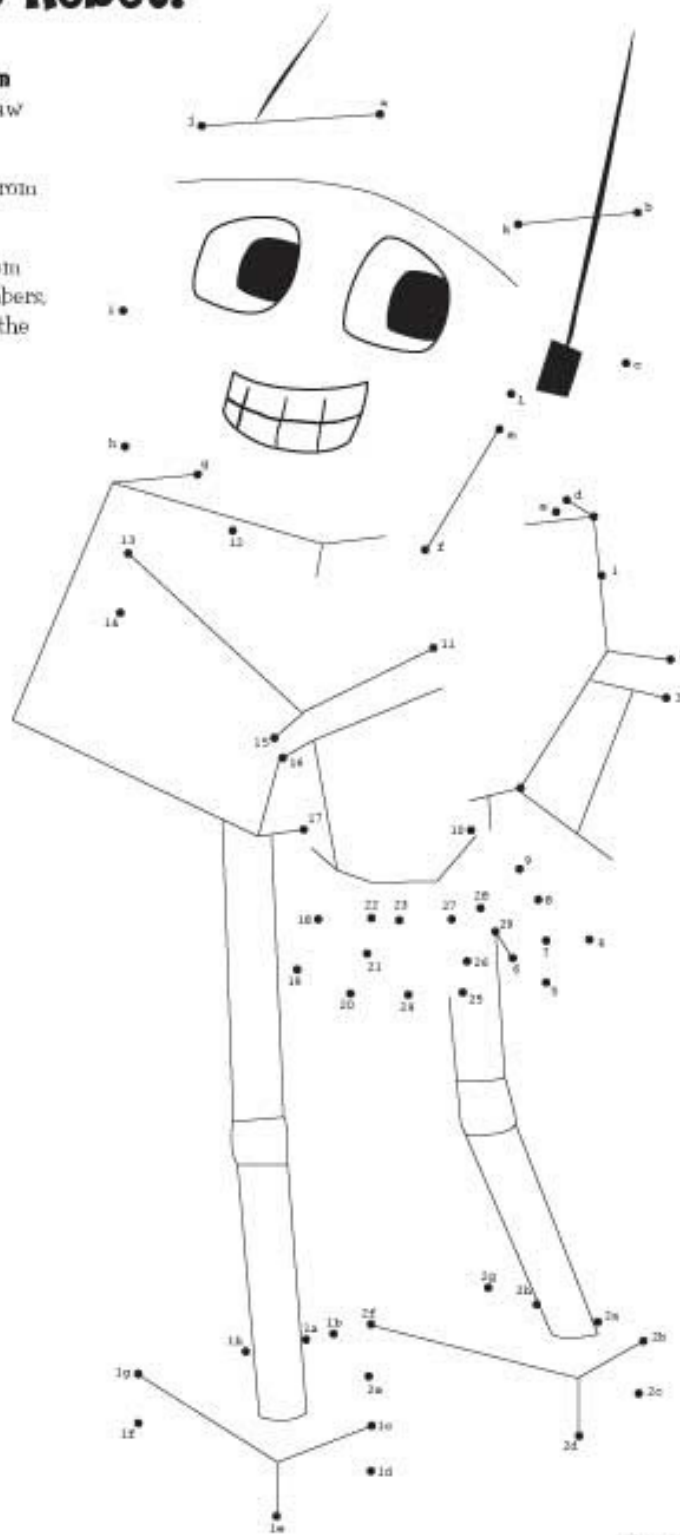

Use crayons, pencils and anything else you fancy to colour in No-Bot and his world. Don't forget his bright colourful buttons!

Dot the dots to draw No-Bot the Robot!

Connect the dots from **a** to **m** in alphabetical order to draw the head.

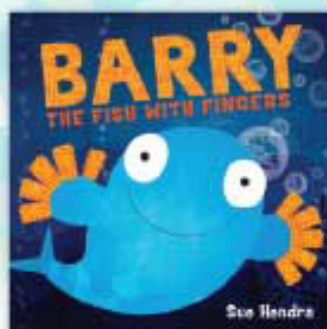

Now connect the numbers from **1** to **29** to draw the body.

Then connect the letters from **1a** to **1h** for the left foot numbers, and from **2a** to **2h** to draw the right foot letters.
