

What to Do

Choose a face

Remember the colour you have chosen.

When you see your face on the page, you are the LEADER.

The LEADER reads the text in the speech bubbles.

There are extra words and questions to help you on the teacher's whiteboard. The LEADER reads these aloud.

When you see this stop sign, the LEADER reads it aloud.

You might need:

- to look at the WORD HELP on pages 20–22;
- to look at the LOCATION HELP on page 23;
- an atlas.

If you are the **LEADER**, follow these steps:

1 PREDICT 🤔

Think about what is on the page.

- Say to your group:
“I am looking at this page and I think it is going to be about . . .”
- Tell your group:
“Read the page to yourselves.”

2 CLARIFY 🤔

Talk about words and their meaning.

- Say to your group:
“Are there any words you don’t know?”
“Is there anything else on the page you didn’t understand?”

- Talk about the words and their meanings with your group.
- Read the whiteboard.

- Ask your group to find the **LET’S CHECK** word in the **WORD HELP** on pages 20–22. Ask them to read the meaning of the word aloud.

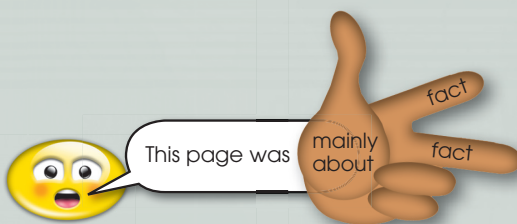

3 ASK QUESTIONS 🤔

Talk about how to find out more.

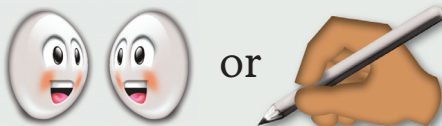

- Say to your group:
“Who has a question about what we have read?”
- Question starters are:
how..., why..., when...,
where..., what..., who...
- Read the question on the whiteboard and talk about it with your group.

4 SUMMARISE 🤔

Think about who and what the story was mainly about.

When you get to pages 16–17, you can talk to a partner or write and draw on your own.

Houses are Different

There are many different houses in the world. They can be different because people are different. The houses can also be different because of where they are.

Houses can be made in many shapes. One of the strongest shapes is the triangle.

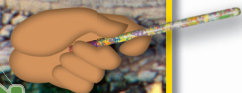

I am looking at this page and I think it is going to be about... because...

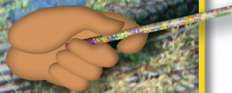

Are there any words you don't know?

Who has a question about what we have read?

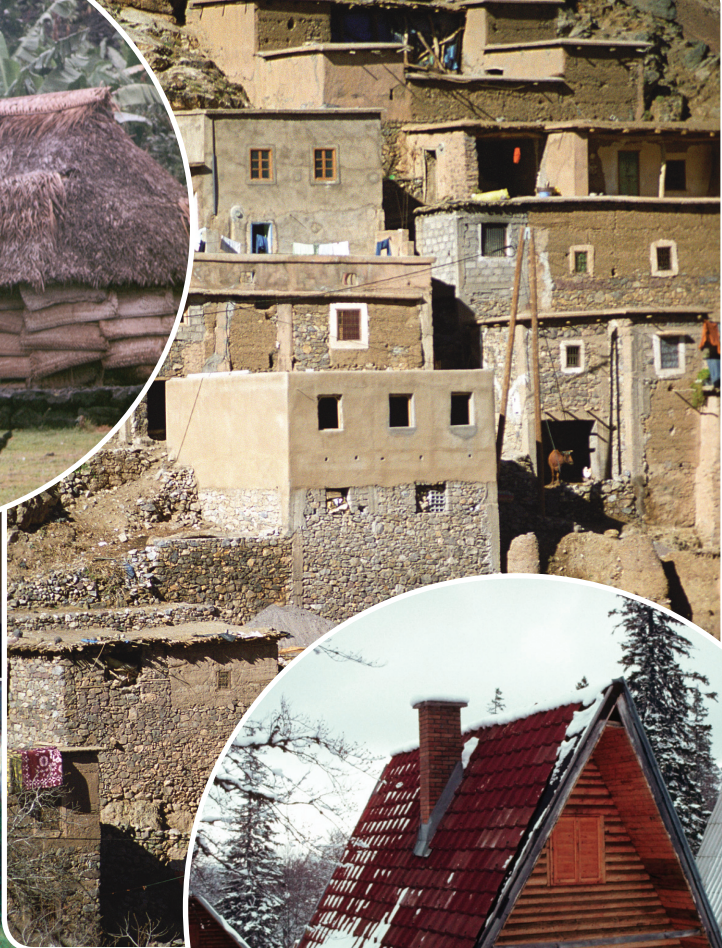

Let's check:
strongest

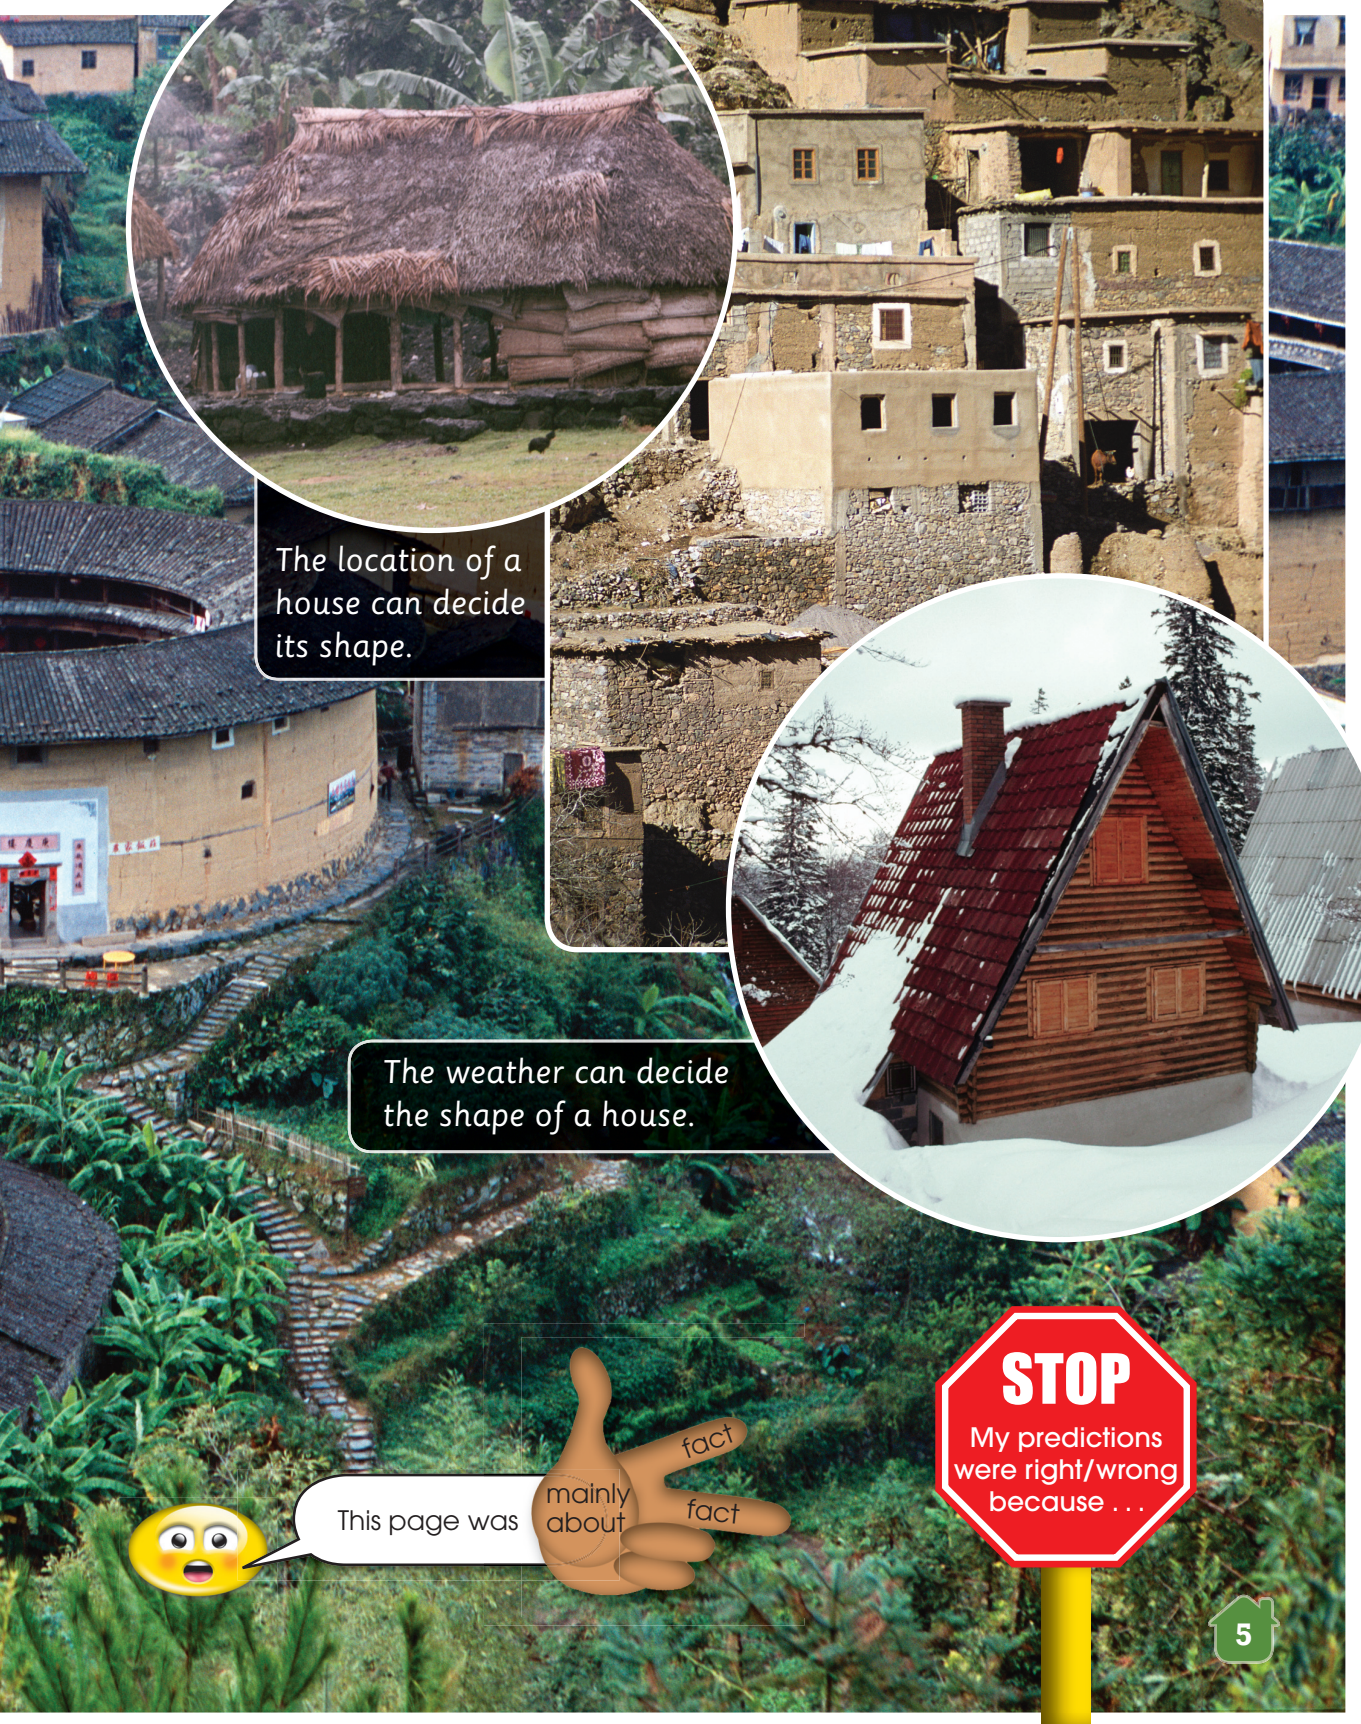

Why do you think the triangle is a strong shape?

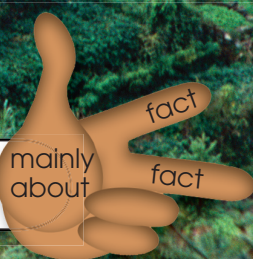

The location of a house can decide its shape.

The weather can decide the shape of a house.

This page was

mainly about

fact

fact

My predictions were right/wrong because ...
