

Rainforest quiz algorithms

- Write down the action, algorithm and code you will need for your rainforest quiz. Continue the table below on another sheet of paper.
- Leave the debugging column until you are asked to complete it.

Action	Algorithm	Code	Debugging
Instructions appear at start.	When quiz started, instructions appear in centre of screen. Everything else hides.	<i>Instructions:</i> When green flag clicked Show <i>All other sprites:</i> When green flag clicked Hide	

I can plan and debug the algorithms needed for my Scratch rainforest quiz.

How did you do?
