

Contents

How to use this book	5
----------------------------	---

Number and place value

Counting in steps	6
Reading and writing numbers to at least 100	8
Comparing and ordering numbers	10
Recognising place value in 2-digit numbers	12
Showing numbers in different ways	14
Using place value and number facts to solve problems	16

Addition and subtraction

Addition and subtraction facts to 20 and related facts to 100	18
Adding and subtracting mentally	20
Adding and subtracting by using objects and representations	22
Adding three 1-digit numbers	24
Checking calculations and missing number problems	26
Solving problems with addition and subtraction	28

Multiplication and division

Multiplication and division facts for the 10-times table	30
Multiplication and division facts for the 2- and 5-times tables	32
Odd and even numbers	34
Solving problems involving multiplication and division	36
Adding numbers in any order	38
Multiplying numbers in any order	39

Contents

Fractions

Fractions of shapes	40
Finding fractions of numbers and quantities	42
Recognising that $\frac{2}{4}$ is equivalent to $\frac{1}{2}$	44

Measurement

Comparing and ordering measurements	46
Choosing and using standard units	48
Telling the time	50
Comparing and sequencing time	52
Money	54
Solving money problems	56

Geometry

Comparing and sorting 2D shapes	58
Comparing and sorting 3D shapes	60
Recognising 2D shapes on the surface of 3D shapes	62
Patterns and sequences	64
Position, direction and movement	66

Statistics

Interpreting and making simple data charts	68
Using and making charts	70
Making totals and comparisons	71

Multiplication table	72
----------------------------	----
