# Using a dictionary

## Learn

What is a dictionary?

A **dictionary** is a book that you can use to check spellings and find out what words mean.

The words are arranged in **alphabetical** order so you can find each word easily.

**a b c d e f g h i j k l m n o p q r s t u v w x y z**

There are 26 letters in the alphabet.

To find a word in the dictionary, think about which letter it begins with.

Words beginning with **a** are near the beginning of the dictionary. Words beginning with **m** are towards the middle of the dictionary and words beginning with **z** are at the end.

Each entry in a dictionary has the word itself in bold or coloured print, followed by a **definition** that explains what it means.

These words for different types of fruit are written in alphabetical order:

**a**pple, **b**anana, **g**rape, **p**lum, **s**trawberry, **w**atermelon
