

# NUMBER FAN

This tool provides a giant version of the classroom classic resource with all the interactivity that you would expect on an interactive whiteboard. The fan has number, money and shape options that all have the same simple drag-and-drop functionality.

## Display

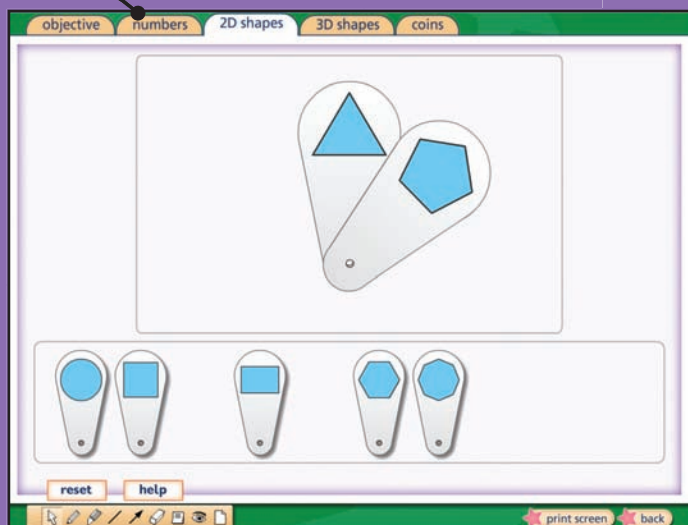

Display up to three sections of the fan at one time. The sections can be re-ordered in the working area.

## Drag and drop

Chosen fan sections can be dragged and dropped onto the working area.

## Options

Change the type of fan viewed.

## Tool functions

- Drag and drop fan sections onto the working area
- Optional fan sets
