

# The challenge of natural hazards

## Tectonic hazards

Study **Figure 1**, a world map showing the distribution of earthquakes and volcanoes.

**Figure 1**

- ① Describe the distribution of earthquake zones shown in **Figure 1**. (2 marks, ★)

.....

.....

.....

.....

- ② Outline **one** reason why earthquakes are found in this pattern. (2 marks, ★)

.....

.....

.....

.....

### NAIL IT!

#### Outline

The command word *outline* means that in your answer you must provide a brief account of relevant information. There is a wide range of geographical factors and processes that could be tested with this type of question, but the answers do not require expansion.
