

Number

Basic number techniques

NAIL IT!

When ordering whole numbers, think of them as temperatures. The coldest is the smallest number.

- ① Write these numbers in order of size. Start with the smallest number. (1 mark, ★)

-8 -12 2 0 -1

.....

- ② Write these decimals in descending order. (1 mark, ★★)

0.32 0.203 0.23 0.3

.....

SNAP IT! Ascending and descending

Ascending order means from smallest → largest.
Descending order means from largest → smallest.

- ③ Write < or > between each pair of numbers. (★)

a -4 0.4 (1 mark)

c -0.404 -0.44 (1 mark)

b 4.200 4.3 (1 mark)

d 0.33 0.4 (1 mark)

[Total: 4 marks]

SNAP IT! Less than or greater than

< means less than; > means greater than.

- ④ Write these numbers in ascending order.

-1.4 -1 1.4 -4 -1.14 (2 marks, ★★)
