Section 3: Writing

On location: the spaceship

● Describe the inside of your spaceship. You could use your plan of the spaceship in 'Silver machine' to help you.

How large is the spaceship?
Where is the control room?
Is there a large screen?
Is there a console?
How many computer screens are there?
How do you get in and out of the control room?
What is the lighting like?
What sort of sounds can you hear?
How do you know where you are in space?
How do you control the speed?
