

On location: alien planet

- Describe what you see when your crew first sets foot on another planet. Use your ideas from 'Invent and alien' and 'Is there life on Mars?' to help you.

| | |
|--------------------------|----------------------------|
| Where are you? | Can you hear anything? |
| What is the ground like? | Is there any sign of life? |
| What can you see? | Are there any buildings? |
| Is it warm or cold? | Is anything moving? |
| Do you feel safe? | How easy is it to move? |
